ADVANCE AUTO PARTS REPORTS SECOND QUARTER FISCAL 2015 COMPARABLE CASH EPS GROWTH OF 9.1% TO \$2.27

ROANOKE, Va., August 13, 2015 - Advance Auto Parts, Inc. (NYSE: AAP), the largest automotive aftermarket parts provider in North America, serving both professional installer and do-it-yourself customers, today announced its financial results for the second quarter ended July 18, 2015. Second quarter comparable cash earnings per diluted share (Comparable Cash EPS) were \$2.27, which included a \$0.03 unfavorable impact from foreign currency and was an increase of 9.1% versus the second quarter last year. These second quarter comparable results exclude \$0.08 of amortization of acquired intangible assets and integration costs of \$0.16 primarily associated with the acquisition of General Parts International, Inc. (General Parts).

Fiscal 2015 and 2014 include certain non-comparable expenses. The Comparable SG&A, Comparable Operating Income and Comparable Cash EPS for the twelve weeks ended July 18, 2015 and July 12, 2014, respectively, have been reported on a comparable basis to exclude General Parts integration and store consolidation costs of \$18.6 million and \$12.2 million, respectively, and General Parts amortization of acquired intangible assets of \$9.8 million and \$9.9 million, respectively. The Comparable SG&A, Comparable Operating Income and Comparable Cash EPS for the twenty-eight weeks ended July 18, 2015 and July 12, 2014, respectively, have been reported on a comparable basis to exclude General Parts integration and store consolidation costs of \$51.3 million and \$27.7 million, respectively, and General Parts amortization of acquired intangible assets of \$22.9 million and \$22.9 million, respectively. For a better understanding of the Company's comparable results, refer to the presentation of the respective financial measures on a GAAP basis and reconciliation of the financial results reported on a comparable basis to the GAAP basis in the accompanying financial tables in this press release.

"I would like to thank all our Team Members for their hard work during the second quarter of 2015," said Darren R. Jackson, Chief Executive Officer. "Our second quarter comparable store sales increased 1.0% and Comparable Cash EPS grew 9.1% to \$2.27. These results were in-line with our expectations given the continuing demands of the General Parts integration. Our integration continues to be on-track overall along with our sales and profitability."

Second Quarter 2015 Highlights

Total sales for the second quarter increased 1.0% to \$2.37 billion, as compared with total sales during the second quarter of fiscal 2014 of \$2.35 billion. The sales increase was driven by the addition of new stores over the past 12 months and a comparable store sales increase of 1.0% partially offset by changes in our independent store count. Our comparable store sales were negatively impacted by 34 basis points due to foreign currency fluctuations from our Canadian operations.

The Company's Gross Profit rate was 45.9% of sales during the second quarter as compared to 45.2% during the second quarter last year. The 64 basis-point increase in gross profit rate was primarily the result of lower product acquisition costs, inclusive of the Company's ongoing merchandise cost synergy savings.

The Company's Comparable SG&A rate was 33.8% of sales during the second quarter as compared to 34.0% during the same period last year. The 22 basis-point decrease was primarily the result of lower insurance costs and overall lower administrative costs driven by synergy savings partially offset by expense de-leverage as a result of our low comparable store sales growth. On a GAAP basis, the Company's SG&A rate was 35.0% of sales during the second guarter as compared to 35.0% during the same period last year.

The Company's Comparable Operating Income was \$285.5 million during the second quarter, an increase of 8.7% versus the second quarter of fiscal 2014. As a percentage of sales, Comparable Operating Income in the second quarter was 12.0% compared to 11.2% during the second quarter of fiscal 2014. On a GAAP basis, the Company's operating income during the second quarter of \$257.0 million increased 6.8% versus the second quarter of fiscal 2014. On a GAAP basis, the Operating Income rate was 10.8% during the second quarter as compared to 10.3% during the second quarter of fiscal 2014.

Operating cash flow increased approximately 3.2% to \$330.8 million through the second quarter of fiscal 2015 from \$320.6 million through the second quarter of fiscal 2014. Free cash flow increased to \$216.3 million through the second quarter of fiscal 2015 from \$214.3 million through the second quarter of fiscal 2014. Capital expenditures through the second quarter of fiscal 2015 were \$114.5 million as compared to \$106.3 million through the second quarter of fiscal 2014.

"Our teams once again delivered on our synergy expectations, expanded our core gross margins and demonstrated expense discipline to grow our Comparable Operating Income 8.7% in the quarter," said Mike Norona,

Executive Vice President and Chief Financial Officer. "We continue to stay focused on our base business while meeting our integration milestones and remain on pace to deliver against our full-year guidance for Comparable Cash EPS in the range of \$8.10 to \$8.30 including achievement of our full-year synergy targets."

2015 Full-Year Outlook

The Company is maintaining its full-year guidance for Comparable Cash EPS of \$8.10 to \$8.30. As part of its on-going process of store evaluations, the Company has identified, and is subsequently planning to close 50 stores in the latter part of 2015 in line with the Company's accelerated efforts to achieve its 12% comparable operating profit target in 2016. The one-time expense impact of these closures is expected to be between \$16 and \$20 million in 2015. This effectively increases the 2015 full-year estimates for one-time expenses from the original outlook of \$75 to \$85 million disclosed in the Company's fourth quarter 2014 earnings release to now be between \$91 to \$105 million.

Store Information

As of July 18, 2015, the Company operated 5,252 stores and 117 Worldpac branches and served approximately 1,300 independently-owned Carquest stores. The below table summarizes the changes in the number of the company-operated stores and branches during the twenty-eight weeks ended July 18, 2015.

Forward Looking Statements

Certain statements contained in this release are forward-looking statements, as that term is used in the Private Securities Litigation Reform Act of 1995. Forward-looking statements address future events or developments, and typically use words such as believe, anticipate, expect, intend, plan, forecast, outlook or estimate. These forward looking statements include, but are not limited to, guidance for 2015 financial performance, statements regarding the benefits and other effects of the acquisition of General Parts; the combined company's plans, objectives and expectations; expected growth and future performance of AAP, including store growth, capital expenditures, comparable store sales, gross profit rate, SG&A, operating income, free cash flow, income tax rate, General Parts integration costs and store consolidation costs, synergies, expenses to achieve synergies, comparable cash earnings per diluted share for fiscal year 2015, comparable operating income rate targets and other statements that are not historical facts. These forward-looking statements are subject to significant risks, uncertainties and assumptions, and actual future events or results may differ materially from such forward-looking statements. Such differences may result from, among other things, the risk that the benefits of the General Parts acquisition, including synergies, may not be fully realized or may take longer to realize than expected; the possibility that the General Parts acquisition may not advance AAP's business strategy; the risk that AAP may experience difficulty integrating General Part's employees, business systems and technology; the potential diversion of AAP's management's attention from AAP's other businesses resulting from the General Parts acquisition; the impact of the General Parts acquisition on third-party relationships, including customers, wholesalers, independently owned and jobber stores and suppliers; changes in regulatory, social and political conditions, as well as general economic conditions; competitive pressures; demand for AAP's and General Parts' products; the market for auto parts; the economy in general; inflation; consumer debt levels; the weather; business interruptions; information technology security; availability of suitable real estate; dependence on foreign suppliers; and other factors disclosed in AAP's 10-K for the fiscal year ended January 3, 2015 and other filings made by AAP with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements. AAP intends these forward-looking statements to speak only as of the time of this communication and does not undertake to update or revise them as more information becomes available.

NOTE: Management believes its Adjusted Debt to EBITDAR ratio ("leverage ratio") is a key financial metric and believes its debt levels are best analyzed using this measure. The Company's goal is to quickly pay down debt resulting from the GPI acquisition, get back to a 2.5 times leverage ratio and to maintain an investment grade rating. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for debt to net earnings, net earnings or debt as determined in accordance with GAAP. The Company's

calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures by other companies.
